

2021 ARCHIVIST ANNUAL REPORT

De Colores from the new Archivist! Blessings on one and all!

Over the past four months, a renewed effort has begun to get the Secretariat's archives in better order. The hard copy archives (three large tubs worth) have been inventoried and catalogued. This includes hard many of the documents which go back to Via de Cristo's founding in 1981.

Electronic copies of many of these documents are accessible from the Via de Cristo website under the "Archives" tab. This is a well-organized site and the best way to access historical documents. Since I bring a fresh set of eyes to the job, one of my current efforts is to evaluate the site and see if it can be further improved.

- What's there that doesn't need to be there?
- What's not there that should be?
- Can the organization of the material on the website be improved?

That is this summer's challenge. I'd really welcome any "user comments" that might help with this process.

Meanwhile, there's a wealth of information available about old Annual Meetings, rollos, associations with other Three Day Movements and on and on. If you can't find it in the Archives webpages, drop me a line and I'll try to chase it down.

God loves you and so do I,
Dave Leverenz
